Education

G.H. Raisoni College of Engineering and Management — Pune, India
B.Tech (Hons) Computer Engineering – CGPA: 9.5 — *Dec 2021 to May 2024*

Government Polytechnic Amravati — Amravati, India
Diploma in Information Technology – 92.63% — *Aug 2018 to October 2021*

Experience

Accenture — Pune, India
Associate Software Engineer — *July 2024 to Present*

- Developed True Supplier Marketplace, a procurement platform using Node.js, Express.js, TypeScript, and PostgreSQL with RESTful API architecture and JSON data exchange.
- Built key product features including supplier onboarding workflows, procurement reviews and invitation mails with comprehensive CRUD operations and Angular-based dashboard components.
- Engineered bidirectional data transformation and automation between marketplace platform and enterprise SAP systems, enabling real-time synchronization of procurement and supplier data through RESTful API integrations.
- Created and optimized PostgreSQL database schemas, queries, and indexing strategies while deploying scalable microservices on AWS using Lambda, Fargate, and S3 for high-performance enterprise applications.
- Collaborated with cross-functional teams of 10+ members including frontend developers, QA engineers, and DevOps specialists in Agile environment, implementing Test Driven Development (TDD) practices and participating in sprint planning and daily stand-ups.

Autoflow Technologies Private Limited — Pune, India
Jr. Associate - Enterprise Mobility — *Jan 2024 to May 2024*

- Developed full-stack Customer Relationship Management application using Flutter frontend and Node.js, Express.js backend with RESTful APIs and JSON data exchange, ensuring real-time updates for sales and customer service teams.
- Built comprehensive Inventory Management System for factory operations with responsive UI and backend API endpoints for data retrieval, manipulation, and real-time synchronization between frontend and backend systems.
- Created Employee Management System with intuitive user interface and integrated backend APIs using Node.js and Express.js for seamless data management and user workflow optimization.
- Implemented complete CRUD operations and database integration for all applications, facilitating smooth data exchange and ensuring accurate information management across multiple enterprise systems.
- Applied Agile development methodologies and collaborated with cross-functional teams while developing scalable applications with focus on user experience, performance optimization, and responsive design principles.

ITISARAS - a non profit organisation — Delhi, India
Web Developer Intern — *Jun 2023 to Dec 2023*

- Developed and maintained WordPress-based website with regular content updates, implementing modern UI themes and responsive design principles for improved user experience.
- Enhanced ITISARAS and Dhaara platform interfaces using HTML5, CSS3, and JavaScript, collaborating with team members using Git version control and Agile workflow management.

G H Raisoni College — Pune, India
Peer Tutor — *Academic year 2023-24*

- Mentored and taught 20+ computer engineering students in Theory of Computation concepts, developing strong communication skills and ability to explain complex technical concepts clearly.

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3, SCSS, SQL, Dart
Frameworks & Libraries: Node.js, Express.js, Angular, Flutter
Databases & Cloud: MongoDB, PostgreSQL, Mongoose, AWS (Lambda, ECS Fargate, S3)
Developer Tools: Git, GitHub, Postman, Figma, VS Code, Swagger, WordPress
APIs & Integrations: RESTful APIs, JSON, JWT
Development Practices: Test Driven Development (TDD), Agile Methodology, Unit Testing

Achievements

Academic Topper: B.Tech Final Year Second Academic Topper.

Interests

Music: Certified vocalist; acoustic guitar enthusiast.
Dance: Trained in classical dance with performance experience.

Languages

English: Professional proficiency - goFLUENT Certified B2.4
Hindi: Native proficiency
Marathi: Native proficiency
